

## AVENTOS HL

**Assembly and adjustment –  
simple, quick and easy**

**AVENTOS HL:**  
Easy removal and assembly thanks to  
tool-free CLIP technology.

### The new “parallel lift” system for perfect motion

**AVENTOS HL inspires through effortless motion:** When opening, the flap lifts parallel to the cabinet. When closing, it glides silently and effortlessly back into place. Combining an integrated BLUMOTION for opening and closing, as well as a variable stop. Your customers will be inspired – for the lifetime of the furniture.

#### **Please note:**

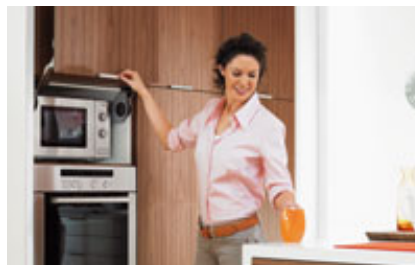

Only flaps that are adjusted properly will offer the visual results and problem-free function that your customers expect.

#### **Technology can be so beautiful**

Along with high functionality, AVENTOS HL also inspires through its simple yet elegant design.

One programme that sets new benchmarks! AVENTOS HL covers all available flap widths and heights:

- For cabinet widths from 450 to 1800 mm
- For cabinet heights from 300 to 580 mm

The lift mechanisms can be adjusted to the respective door weight. The 3-dimensional adjustment feature enables fronts to be precisely aligned.
